ROB THROUGH HIS BODY.

A Mexican Railroad Laborer Meets With a Sad Accident.

The Arizona & New Mexico company is changing its roadbed this side of Clifton in order to make it more secure during the flood season, says the Lordsburg *Loyalist*. In doing this work considerable blasting has been necessary, to do which some experienced miners were set at the work. A Mexican who has worked a long time in the mines had drilled a hole about twenty feet deep, and was putting in some dynamite. He had one stick in and tamped down, using an iron tamper rod some twenty feet long and three-quarters of an inch in diameter. He had his charge properly placed and started to withdraw the rod. He had it nearly out when it slipped from his hands and fell in the hole. On striking the dynamite the concussion was so strong that it caused an explosion, throwing the rod out of the hole. When the rod went down the man had evidently leaned over the hole, and when it came up it caught him just below the shoulder. Eighteen feet of rod went through the man's body and then it stuck. The other workers rushed to his assistance. The rod could not be pulled back, and it took the united efforts of three strong men to pull it out. The man's face was also torn out. Notwithstanding these terrible injuries the man is still alive, and the doctors say he will undoubtedly recover.

ARIZONA ITEMS.

The Vulture mines are being floated in bond for \$1,800,000, says a prospectus which is being circulated among English investors.

The Phoenix & Maricopa railway is now receiving a shipment of 2,000 boxes from Santa Monica. They were cut at mile creek in Meadmoore county. January 9 and 10 are the dates of the annual shooting tournament of the gun clubs of the territory at Phoenix, instead of January 4 and 5, as previously announced.

Two hawks at Wilcox hatted fish hooks, chickens and made a good haul for Thanksgiving. They threw the oven open and yanked the fowl to their feet. They're in jail now.

Dear Fation has a challenge for a shooting contest in the Mesa Free Press. A. H. Justice, a Verde river cattlemen, has accepted the challenge and the meet will come off in Phoenix about Christmas. The purse will be \$200 to the winner.

The Republic says: Col. H. W. Lawrence, military inspector, was in Phoenix, sent for Whipple barracks last night, and Lawton is remembered by all the timers, for he took an active part in Indian campaign in that territory. Was taken for a drive around the valley by Mayor Moon.

Sergeant Clifford, sent to the insane man at Phoenix a few days ago, escaped from the insane asylum. The warden is a confirmed morphine fiend and is known to the police. She was sent to San Quentin from Williams a few days ago for manslaughter. She has since sought her favorite haunts and is recaptured.

Bearraham County Bulletin says: Col. Young, former grade boss on the Gila, Glendale & Northern railroad, and left here about six months ago for Alaska, returned to the valley on Thursday.

The only one of the party remaining in Alaska now is Harry Bolan, atomic conductor on the road here. Mr. Young states that the Alaska stories were "fake" and that he would advise no one to go there expecting to make a fortune.

MARS AND VENUS.

Monthly Inspection and Hop of the Guards.

This day

The assembly sounded in Armory hall last evening at 8:30 for the regular monthly drill and inspection of Companies 8-10, being owing to several young companies of Mars and Venus having prospective veins to take a look last in the glass to see if her hat was on straight, they were delaying the drill a few minutes.

The captain turned a little under his breath, but let the culprits down easy, it is supposed, on the ground that he knew how it was himself.

Dear Fation followed roll call, succeeded by the inspection of the company by Lt. Col. John Berardino, who found everything in neat and satisfactory condition, the condition of arms having been improved in several instances over that of a month ago.

The visitors present declared themselves much pleased with the appearance and with the company. Its members are all young and intelligent, active, and proud of their organization, all in these facts appear the reasons for the company's progress.

The drill ended, the gentlemen of the entertainment committee of the guards, Lieutenant Chamberlin, Sergt. Ola Matsen, Privates Watson, Medler and Reed, with Private Johnson as chairman, took charge of the program. It soon became apparent that their musical group and their friends, were gliding over the perfect floor to the strains of the First regiment orchestra, D. E. Phillips directing the grand march and calling the dances.

Fourteen numbers were on the program, and all went merrily until a few minutes past twelve when the gay and pleasant party bade each other good night.

The entertainment committee is to be congratulated on its success in carrying out all the details which made the occasion such a pleasant one for the forty couples participating.

THE SANTA FE COMPANY.

The Entire Board of Directors Was Re-Elected.

At the annual meeting of the board of directors of the Santa Fe system, held in Topeka on Thursday, the entire board of directors, the executive committee and the officers of the road were re-elected.

The firm of Prince, Watson & Co., of New York and Chicago, was re-elected as the independent auditors.

Chairman Alace F. Walker submitted his annual report, which was adopted. It has been made public before.

In order to make it possible to re-elect the board of directors a special meeting was held to change the by-laws.

At a meeting of the directors last year an amendment to the by-laws was prepared providing that the term of four members of the board should expire each year. This change was arranged to become operative at this year's meeting, the directors at a special meeting having changed the rule so that it will not take effect until the annual meeting in 1897.

This was deemed advisable because of the fact that a large amount of legal proceedings are still pending, and no change in the present management is desirable to the Santa Fe company.

The numerous cures of rheumatism by the use of the old standard bone, especially Ayer's Sarsaparilla, show conclusively that it is an effective remedy, if not indeed the specific for this most painful and persistent of maladies. What has cured others will also cure you.

Handy for Passengers.

What is considered the most artistic railroad folder in the world will soon be received by patrons of the Atchison, Topeka & Santa Fe railway. It revolutionizes similar publications, is published at Chicago monthly, and contains fifty-six pages of the finest book paper. In 75 percent of the railroad folders one can find the time of the arrival and departure of trains. The new folder is so arranged that it is at once simple and complete, containing everything a passenger desires to know. An index of every train running over the system is supplemented by a list of stations so arranged that the old form of one table for east and west-bound time is relinquished for two separate tables, making the time much handier for reference. The thirty-nine branches of the Atchison, Topeka & Santa Fe, with a list of the equipment of every train between each station, makes the folder as the most complete.

Elly Brothers.

66 Warren St., New York City.

Rev. John Reid Jr., of Great Falls, Mont., recently exhibited Elly's Cream Balm to me, and I can assure him it is a positive cure for scatarrh if used judiciously.

Rev. Francis W. Poole, Pastor Central Pres. Church, Helena, Mont.

Elly's Cream Balm is the acknowledged cure for scatarrh and scabies no necessary new ingesta drug. Price, 50 cents.

John Reid, however, was well in-

formed, refined, very earnest in her work and commanded respect. The War Cry, the official paper of the army, was sold at five cents a copy, and a little later a collection followed, but the nickels hit the box very shyly. The army is in Albuquerque to stay, and when the pecuniary method is a vague among its members of rounding up sinners is more thoroughly understood, and the vast amount of good the organization has accomplished throughout the world is fully comprehended, no right-minded person will say them nay. No religious body has a corner in salvation, and we will take that kind of medicine from a lassie in blue as willingly as from any other source. The taborine brigade has an interest in the body as well as the soul.—San Marco.

BUCKIN'S ARMS SAVER.

The best salve in the world for cuts, blisters, sores, ulcers, salt rheum, fever sores, tetters, chapped hands, chilblains, sore eyes, piles, or ringworm. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Walton, City Drug Store, Albuquerque.

After Looms.

"Black Jack" and his companions, at last accounts, were down in the state of Sonora, and the Mexican army was after them. Deputy Marshal Loomis was patrolling the line with his shot gun over his shoulder, to see that they did not slip back into this country. These outlaws fear and hate Loomis more than any other officer, and in the event of a skirmish will do all of their shooting towards him. A friend warned Loomis of this the other day and urged him to let some other officer take his place. Loomis is refused to abandon the chase, remarking: "You must remember that I have the same kindly feeling for them that they have for me"—Lordsburg *Loyalist*.

THE SUPREME COURT.

Adjourned Regular Meeting of the Supreme Court.

The New Mexico session adjourned session on Friday evening, with Chaffee, Clegg, and Aspinwall, and Baumgardner present, and Mr. N.

vs. The Mountain Home, et al., and Walker, et al., appeared. Mr. Clegg, of Taos, was continuing his case.

The case of the *U.S. vs. J. P. Pitts*, et al., was dismissed.

In the case of *U.S. vs. J. P. Pitts*, et al., the plaintiff in error, defendant in error, was dismissed.

A petition for a writ of habeas corpus was filed in the case of *Joseph McIntyre*, et al., and Edgar Wilson, et al.

A recess was taken in the motion for a writ of habeas corpus.

HILLSBORO GOLD MINES.

Working Stoppes with a View to Christmas Presents.

For the 10th to 12th of December.

The output of the Hillsboro gold mines for the past week was 14 tons.

J. P. Scott is getting rich ore from the Sherman slopes and will get in a big shipment before Christmas.

The Bonanza mill has been effecting remarkably easy saving on snake and Riehle ore of late.

The great deal will be closed this month and a large amount of money in consequence will be distributed in Hillsboro.

Gallagher & Hansen have brought the Charter Oak mill to a high degree of efficiency and have proved their machines and concentrating apparatus with a very successful trial run.

THE SANTA FE SYSTEM.

The program of the Santa Fe System.

The program of the Santa Fe System.

Meeting of the Santa Fe System.

New Mexico was last week.

The public schools.

For each class there is a

monthly average.

Reception for the

education of the

poor.

The Snake miners generally have been much encouraged recently with the high grade of ore encountered and with the excellent results obtained from the silver city reduction company.

Cheney & Wiley have completed their building at the Platina mine, the north extension of the Sherman, and will now proceed to extract the rich ore for which the property is already noted.

The Snake shaft is now down to an even 500 feet, making it the deepest in the camp. Following it are the upper, 100, 150, 200, and 250 feet, the Riehle, 280, 330, and 380 feet, and the Wicks, 430, 480, and 530 feet, and the Bonanza tunnel game depth on the vein at about 100 feet.

Contractors Spencer & Titter have completed their contract for sinking the lead additional on the Snake main shaft.

Their estimate and bid was for ninety

days time and the work was finished in ninety-six days which is pretty good considering that the last fifty tests is very hard ground.

In 1892 A. L. Goldwater, who owns three retail drug stores in New York City, having learned of the great value of Chamberlain'sough Remedy for colds, cough, and whooping cough, ordered a supply for his customers. It met with such success that he soon got it ready to order more, and then winter following over two years of the remedy. He says it gives the best satisfaction of any cough cure he has ever handled. For sale at 25 cents per bottle by W. A. Maxwell Drug Co.

TO BE BUILT AT ONCE.

This is the Way the Rail Shops Are Being Remained to Trinidad.

President Ripley and several of the

directors with general Manager Fred

Pasenger, Trade Manager W. F. White

Controller, Superintendent of Schools

Duff principal of Sherman

Sherman, and Bryan, director of Silver

Paper—Third Street, and

the papers of the

Society of the

and Miss Ada Palmer

garden school at Trinidad.

Professor T. A. Clegg, et al.

EVENING NEWS.

Address of welcome

principal of the public

and several other officers of the

Santa Fe arrived in Raton on a special

train from the east early this morning

and remained here about four hours and

a half, after which they boarded their train with through orders for Topeka, says the reporter.

While here the officials made a general

inspection of their extensive plant and

discussed plans for the enlargement, or

orders have just been given for a new

wheel shop just east of the transfer

tracks, also a new paint shop and an ex-

tension of the roundhouse. This last will

probably take the shape of a new build-

ing with turn table and stalls for twenty

or thirty locomotives.

Work will be commenced on the new

buildings at once and pushed to comple-

tion as rapidly as possible.

This may be considered as the officials' answer to the Trinidad fake shop removal.

\$1000 toward \$1000.

The readers of this paper will be pleased

to learn that there is at least one

deadly disease that seems to be

able to cure in all its stages, and that is catarrh. Hall's catarrh cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requiring constitutional treatment, Hall's catarrh cure is directed mainly, acting directly upon the blood and mucus surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative power that they offer one hundred dollars for any cure that it fails to effect.

"I think it was a very unjust punishment if the little girl did not know it was wrong and thought she was pleasing her mother, but she should have been punished," said the teacher.

"I would not let Jennie decide upon her own punishment," said the teacher.

"I would not let her wash and dry the dishes for three months," said the teacher.

"Not for a week," said the teacher.

"I would not let her eat with the family for a week," said the teacher.

"I would not let her sit in the school room," said the teacher.

"I would not let her go to school," said the teacher.

"I would not let her go to school," said the teacher.

"I would not let her go to school," said the teacher.

"I would not let her go to school," said the teacher.

"I would not let her go to school," said the teacher.

"I would not let her go to school," said the teacher.
